

## IMMUNIZATION POLICY

State law requires that every child enrolled in a nursery school, preschool, or day care center must be adequately immunized according to the Missouri Immunization Schedule. This schedule is in compliance with the U.S. Department of Health and Human Services, Centers for Disease Control and Prevention, The American Academy of Pediatrics, and The American Academy of Family Physicians. For more information about required immunizations visit:

<https://health.mo.gov/living/wellness/immunizations/schoolrequirements.php>

Each parent must provide satisfactory evidence of required immunizations to the director who, in turn, must file an annual report of compliance. Your child's pediatrician provides a report of vaccinations to you at each visit, and a copy of this form is adequate evidence of vaccination. *Immunization information, signed by the child's doctor (by hand or electronically), must be on file in the Nursery School office **before** a child is allowed to enter school.*

The Ethical Society Nursery School Board will review cases of necessary medical exemptions and will potentially allow an unvaccinated child to attend school. Any other exemption to vaccinations is not allowed.

Children who are on a delayed immunization schedule are required to submit the Missouri Department of Health "Immunizations in Progress" form with their immunization record. The Board will then review the child's record and decide on eligibility to continue. (see statute below)

Imm.P.14

Immunization in progress. Section 167.181, RSMo, provides that students may continue to attend school as long as they have started an immunization series and provide satisfactory evidence indicating progress is being accomplished. An original Department of Health and Senior Services' form Imm.P.14 shall be completed and placed on file with the school immunization health record of each student with immunizations in progress. The Imm.P.14 form is incorporated by reference in this rule as published June 2012 by the Department of Health and Senior Services and may be obtained by contacting a medical provider, local public health agency, or the department's Bureau of Immunization Assessment and Assurance at PO Box 570, Jefferson City, MO 65102-0570, or by calling 800-219-3224. This rule does not incorporate any subsequent amendments or additions. Failure to meet the next scheduled appointment constitutes noncompliance with the school immunization law and exclusion shall be initiated immediately.
